

National Craft Assessment and Certification Program SPECIFICATIONS

SUSTAINABLE CONSTRUCTION SUPERVISOR (SUST70)

Released July 2011

Overview

This written assessment is a two-hour closed-book examination. The assessment center will provide any necessary pencils. No extra papers, books, notes or study materials are allowed in the testing area.

Study Material

All NCCER written assessments are referenced to NCCER's curriculum listed in the content. You may order modules from Pearson (800.922.0579) or from NCCER's Online Catalog at www.nccer.org.

Assessment Development

All questions on each assessment have been developed and approved by subject matter experts from the respective craft. Assessment development and administration is under the direction of ProvTM, NCCER's testing partner.

Credentials

NCCER will send appropriate credentials (certificate, wallet card and official transcript) to the assessment center upon successful completion of the written assessment.

Training Prescription Reports

Each candidate will have access to individual results of the written assessment from Prov's website at www.provexam.com. This training prescription will include the overall score and results by topic area.

National Registry

Assessment results will be maintained in NCCER's National Registry and become a part of each candidate's training records. These records are stored and become a portable record of the candidate's training and assessment achievements.

Focus Statement

The Sustainable Construction Supervisor will be able to demonstrate a working knowledge of green construction methods and of the LEED rating system; use product information to evaluate whether products meet a given sustainability standard; implement and ensure ongoing verification of LEED compliance; implement the waste, site erosion control, and IAQ management plans; and identify, collect, and maintain required supporting documentation for the project's LEED certification.

Written Assessment Contents:

Module Number	Topic Area	# of Questions
70201-10	Project Sustainability Pitfalls	8
70201-10	Project Sustainability Improvement	6
70201-10	Product Sustainability Standards	10
70201-10	Trade-offs for Materials -Related LEED Credits	7
70201-10	Construction Documents and LEED Requirements	10
70201-10	Required Sustainability Components	9
TOTAL QUESTIONS		50

The minimum passing score is 75.
