

Performance Profile Sheet (Page 1 of 2)

NCCER Training

Craft: Pipeline Mechanical Level 2
 Module: CT19_7-17
 Module Title: Adjust Actuator/Operator, Hydraulic

Trainee Name:

Training Program
 Sponsor:

Instructor:

Rating Levels: (1) Passed: performed task (2) Failed: did not perform task
 Also, list the date the testing for each task was completed.

Recognition: When testing for the NCCER Training Program, be sure to record Performance testing results on the Registration of Training Modules form, and submit the results to the Training Program Sponsor.

OBJECTIVE	TASK	RATING	DATE	START TIME	END TIME
2	Adjust a hydraulic actuator/operator (CT19_7-17).				
	Identify potential abnormal operating conditions (AOCs) that may occur during performance of this CT, and know the appropriate actions to take in response to them.				
	Utilize the appropriate personal protective equipment according to relevant company procedures.				
	Verify the location and accessibility of the valve to be inspected, and verify the actuator type, number, manufacturer, and nameplate data.				
	Notify control center and/or affected personnel before work begins.				
	Follow associated task-specific procedures (if applicable) and perform maintenance per manufacturer's or industry recommendations.

NCCER Training

Craft: Pipeline Mechanical Level 2
Module: CT19_7-17
Module Title: Adjust Actuator/Operator, Hydraulic

OBJECTIVE	TASK	RATING	DATE	START TIME	END TIME
2	Adjust a hydraulic actuator/operator (CT19_7-17).				
	Isolate the valve, actuator, and any associated components, and verify proper valve position.				
	Properly set the mechanical stops, limit switches and/or hydraulic actuator travel, if applicable.				
	Remove lockout/tagout, if applicable. Perform a function test and confirm that the actuator local and remote position indicators are functioning correctly.				
	Notify control center and/or affected personnel after completion of work.				
	Complete appropriate documentation as required by operator's procedures.
