

# Performance Profile Sheet (Page 1 of 1)

NCCER Training

Craft: Pipeline Maintenance Level 3  
 Module: CT33\_1-17  
 Module Title: Determine Allowable Line Pressure in Section of Pipe to be Moved

Trainee Name:

Training Program  
 Sponsor:

Instructor:

Rating Levels: (1) Passed: performed task (2) Failed: did not perform task  
 Also, list the date the testing for each task was completed.

Recognition: When testing for the NCCER Training Program, be sure to record Performance testing results on the Registration of Training Modules form, and submit the results to the Training Program Sponsor.

OBJECTIVE	TASK	RATING	DATE	START TIME	END TIME
2	Determine the allowable line pressure in a section of pipe to be moved (CT33_1-17).				
	Identify potential abnormal operating conditions that may occur, and know the appropriate actions to take in response to them.				
	Utilize the appropriate personal protective equipment according to relevant company procedures.				
	Confirm with project leader section of pipeline system to be lowered.				
	Confirm type of product currently flowing through section to be lowered.				
	Determine location of valves immediately upstream and downstream from lowering location.				
	Complete appropriate documentation as required by operator's procedures.
