

Performance Profile Sheet (Page 1 of 2)

NCCER Training

Craft: Pipeline Maintenance Level 2
 Module: CT51_0-17
 Module Title: Purge Air from a Pipeline (Gas)

Trainee Name:

Training Program
 Sponsor:

Instructor:

Rating Levels: (1) Passed: performed task (2) Failed: did not perform task
 Also, list the date the testing for each task was completed.

Recognition: When testing for the NCCER Training Program, be sure to record Performance testing results on the Registration of Training Modules form, and submit the results to the Training Program Sponsor.

OBJECTIVE	TASK	RATING	DATE	START TIME	END TIME
1.	Purge air from a pipeline (CT51_0-17).				
	Identify potential abnormal operating conditions that may occur, and know the appropriate actions to take in response to them.				
	Utilize the appropriate personal protective equipment (PPE) according to relevant company procedures.				
	Purge the pipeline segment by allowing the air/gas mixture in the pipeline to vent safely into the atmosphere.				
	Use a vent pipe to direct purged vapors away from any ignition source.				
	Sample the atmosphere in the vent stream with a combustible gas indicator or portable gravitometer to determine when the vapor reaches 100% gas (the pipeline has been purged of all air).
